

2023 ANNUAL REPORT

A Message from the Chairman

As we begin a new year, I want to take a moment to reflect on the accomplishments we made in 2023. To date, our Foundation has awarded \$80,500. In our first full year as a foundation we have been able to award over \$40,500 to 18 non-profits in our area. With each grant awarded we have been able to support families in the communities we serve with housing, food, clothing, education, all of which align with the strategic pillars for which our Foundation was formed.

This foundation was created as an extension of Christian Financial. Our foundation allows us to invest in organizations and programs doing great work in our communities, so that our impact can be amplified.

We received many compelling and diverse grant applications during this last year. We had the additional benefit of reaching even more non-profits through the work of our internal credit union Outreach & Impact Program through which we offered internal team members of the credit union to select non-profits in our area that aligned with our philanthropic pillars and provide additional financial support to these organizations.

Each of the non-profits we partnered with gave us an opportunity to fulfil our mission and purpose in a tangible way.

As we look to this new year with hope and optimism, we are truly looking forward to making an even larger impact this year.
